THREE CANYONERS INJURED IN ZION NATIONAL PARK

On Saturday, July 24, three men from the Las Vegas area were caught in a flash flood while canyoneering in Spy Canyon in Zion National Park. All three were washed over a 40-foot waterfall and were also washed over a 60-foot waterfall. All three were injured and were rescued by park rangers.

On Saturday afternoon a severe thunderstorm developed over Zion National Park dropping a 30 percent chance of afternoon thunderstorms and flash flood potential. The weather report for that afternoon showed a 30 percent chance of afternoon thunderstorms and flash flood and three helicopters. The weather report for Saturday, July 24, was for a 30 percent chance of afternoon thunderstorms and the U.S. Weather Service issued a moderate potential for flash flooding. This incident caused the three men to take shelter near the waterfall and then report to emergency services that three men were washed over a 40-foot waterfall and were also washed over a 60-foot waterfall. All three were injured and were rescued by park rangers.
