Jupiter Jubilee is October 7

Four Corners School’s Canyon Country Discovery Center presents the Jupiter Jubilee on October 7 at 7:30 p.m. Come one, come all to view Jupiter at its closest Earth encounter since 1996. This promi-

nant period of a viewing treat as we will be in a new moon phase and the sky will be en-
tirely dark—the perfect night to witness Jupi-
ter’s moons in their larger-than-life glory!

If the idols were not enough, the Dracoloid ma-
teer shower will spew from the mouth of Draco the dragon, a constellation in our northern skies.

While this shower does not typically offer cele-
stial fireworks, on occasion, the dragon awakens and belches forth hundreds, and sometimes thousand, of meteors in a single hour.

But this event offers more than simply view-
ing beautiful impacts. Participants will learn how to use a teles-
copes to locate objects in the night sky—it will be up to you to find Jupiter and unlock the se-
crets of this magnificent planet and its abundant lunar surprises.

This stellar event will be held at the future campus of the Canyon Country Discovery Center located north of town on hig-

way 191. Turn left im-
mediately after the “Welcome to Monticello” sign on a small, dirt road and et-
ter through the gate, con-
tinuing to the community parking area on the right. Park and walk to the ob-

servatory, remember to dress warmly and bring a flashlight. If you have any questions, call and ask for Pam at 435-587-2156. You there!!!
